

## Sacramento River Toxic Pollutant Control Program

### General Information

Primary Key 4911

Time Frame 09/01/95 - Ongoing

Lead Agency Sacramento Regional County Sanitation District

Purpose Develop and implement a program to bring the Sacramento River and its tributaries into compliance with appropriate water quality standards and thereby protect beneficial uses.

Abstract This multi-year and continuing project will develop and implement a water quality monitoring program, evaluate site specific water quality criteria, identify and evaluate control options to improve water quality, and develop and implement a technically feasible cost-effective and locally supported program to protect beneficial uses.
