

How to Georeference and Map Assets on Bay-Delta Live

Welcome to the How to Geolocate and Map Assets on Bay-Delta Live tutorial.

First, be sure to log in by clicking on the Login link at the top of the homepage.

For this tutorial, we will geolocate one document and one project page.

GEOLOCATE AND MAP A DOCUMENT

To access the document library, click on the "Docs" link on the homepage.

Find the document or photo you would like to georeference and hover over the Tools button until a drop-down menu appears. Choose, "edit."

The metadata editor form pops up. This is where you can enter or edit the metadata of the image.

For this example, we're going to georeference an image from the Wallace Weir Improvement Project.
