## Tutorials

### SHARE A PROJECT

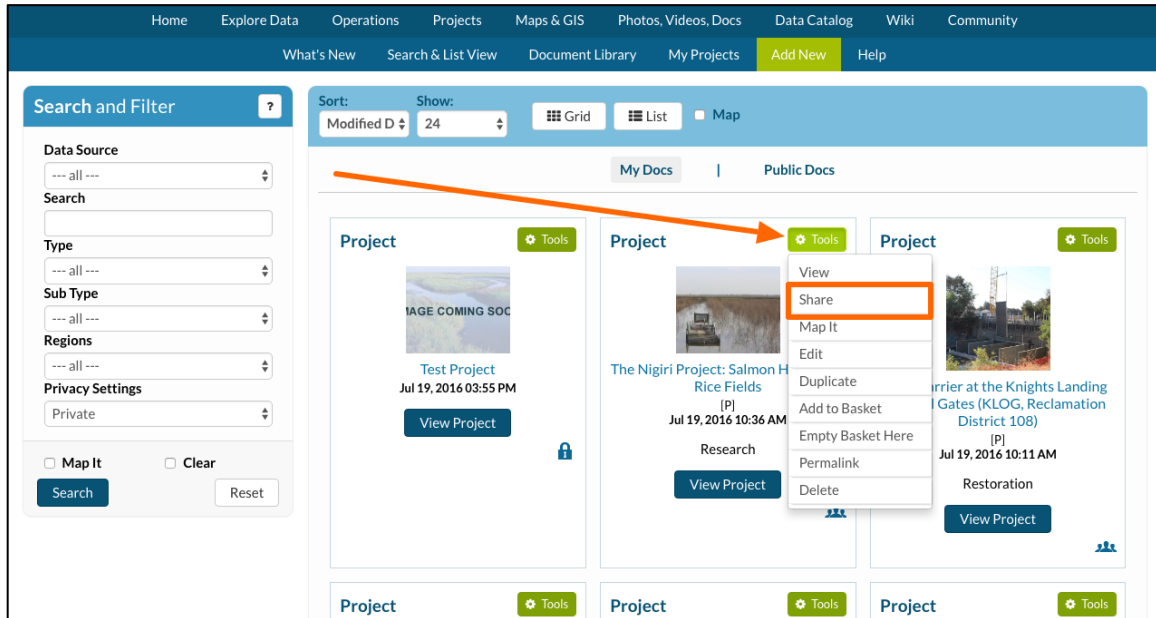

You can share a project via the TOOLS menu.  
If you are in the project, the TOOLS menu is on the left-hand side.

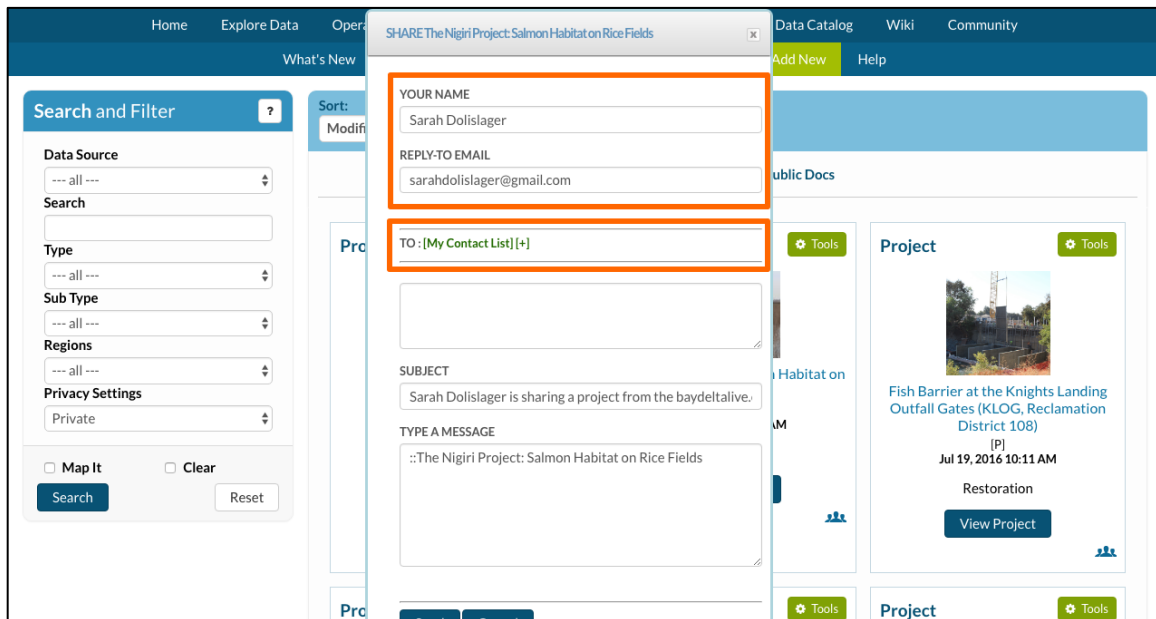

If you are in the project library, the TOOLS menu is in the top-right corner of each item.

Hover over the TOOLS menu and choose, “share.”

A form will appear where you can input contact information for yourself and who you want to share the project with.

You can also include a subject and message.

The screenshot shows a web application interface with a top navigation bar (Home, Explore Data, Operations, Data Catalog, Wiki, Community) and a left sidebar (Search and Filter). The main content area displays a form titled "SHARE The Nigiri Project: Salmon Habitat on Rice Fields". The form fields are: YOUR NAME (Sarah Dolislager), REPLY-TO EMAIL (sarahdolislager@gmail.com), TO : [My Contact List] [+], SUBJECT (Sarah Dolislager is sharing a project from the baydeltalive.), and TYPE A MESSAGE (The Nigiri Project: Salmon Habitat on Rice Fields). The SUBJECT and TYPE A MESSAGE fields are highlighted with an orange border. The right sidebar shows a list of projects, including "Fish Barrier at the Knights Landing Outfall Gates (KLOG, Reclamation District 108)".

Once you're done filling out the form, click "send."

This screenshot is identical to the one above, showing the same form and interface. However, the "Send" button at the bottom of the form is now highlighted with an orange border. An orange arrow points from the left towards the "Send" button, indicating the next step in the process.

This will send the recipients your message with a link to view the project on [www.baydeltalive.com](http://www.baydeltalive.com).
