

SHARING THE VISION

WHAT IS BAY-DELTA LIVE

Bay-Delta Live is a cooperative arrangement among government agencies and stakeholder groups to merge information about the Sacramento-San Joaquin Delta into a single web site. Bay Delta Live aims to capture the dynamic estuary with real-time information, interactive mapping and access to the latest research and policy discussions.

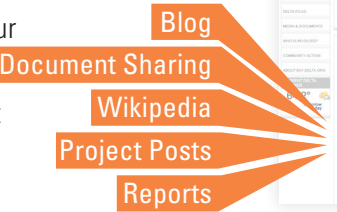

COMMUNITY

A User **COMMUNITY** That Brings Together All People Who Want To Understand And Work Together To Solve The Sacramento San Joaquin Bay Delta's Problems.

PERSONALIZE

Personalize BayDeltaLive.com homepage and project pages to suit your preferences. Build your own real time monitoring station widget for your desktop. Build your own project pages.

ABOUT BAYDELTALIVE.COM

The Sacramento-San Joaquin Bay Delta is a very important topic in the state of California because it is in crisis. The Sacramento-San Joaquin Delta is the HUB of California’s water system; it is home to a unique and fragile ecosystem; and is the center stage for many stakeholders and their vital interests.

The mission of BayDeltaLive.com is to aggregate the wealth of knowledge and information that already exists and to display it in an easy to use interface. Additionally we are working to display once difficult to access and understand scientific information including water flow rates, salinity, turbidity, dissolved oxygen and more in a 2-D and 3-D map interface.

The mission of BayDeltaLive.com is to create a place where ALL stakeholders may go to contribute and gather the necessary information to make the important decisions that lay ahead. It will also be a place to track and monitor progress of these important decisions.
