

Endangered Fishes and the Delta

Peter Moyle

UC Davis

January 2010

MESSAGES

- Endangered fishes and ecosystems a statewide problem
- Root cause of RECENT fish declines in Delta is water diversions
- Delta is part one of best studied estuaries in world

California

Spans 10 degrees, latitude
411,000 sq km area
2100 km coastline

ENDEMISM

N = 131

79% are
state or regional
endemics

CA FISHES: STATUS, 2009

49%

extinct or
imperiled

Moyle, Quinones
& Katz, in prep.

N=131

Globally extinct

EXTINCTION HAPPENS!

Global extinction pending

Messages

- Endangered fishes and ecosystems a statewide problem
- Root cause of RECENT fish declines in Delta is water diversions
- Delta is part one of best studied estuaries in world

Lund et al. 2010

Summer Trends in Key Ecosystem Components

Hydrodynamic Changes

J. Burau & C. Enright:

Central Delta has
Become a more
homogenous environment

Not functioning like
estuary

0 4 8 12 MILES
0 4 8 12 KILOMETERS

Distribution of submerged aquatic vegetation beds June 2008

- Exotic SAV primarily Brazilian waterweed.

REGIME SHIFT

FROM VARIABLE ESTUARINE SYSTEM TO MORE STATIC FRESHWATER SYSTEM

Why a freshwater, less variable Delta?

DIVERSIONS

SECONDARY EFFECTS

- ENHANCED ALIEN INVASIONS
- REDUCED FOOD SUPPLIES
- WATER QUALITY CHANGES
- INCREASED POLLUTION EFFECTS
- PREDATION
- ETC.

ULTIMATE VS PROXIMATE CAUSES of
FISH DECLINES

Messages

- Endangered fishes and ecosystems a statewide problem
- Root cause of RECENT fish declines in Delta is water diversions
- Delta is part one of best studied estuaries in world

Suisun Marsh: Delta Comparisons

SAMPLING monthly since 1980

7075 trawls,
210,254 fish,

1756 seine hauls,
116,911 fish,

UCD program one of six regular
fish monitoring programs

Invertebrate Sampling

WHAT DOES THE SCIENCE TELL US?

PAST PHYSICAL HABITAT
CHANGE

DIVERSIONS

SECONDARY EFFECTS

NATIVE FISH DECLINES

MESSAGES

- Endangered fishes and ecosystems a statewide problem
- Root cause of RECENT fish declines in Delta is water diversions
- Delta is part one of best studied estuaries in world

THANK YOU!
